

MR. BACHRACH—Then you were a doctor of medicine?  
DR. KROHN—Yes.  
Enthusiastic George Hottel.  
MR. BACHRACH—But in 1889, you did not get a degree which made you a doctor of medicine?  
DR. KROHN—I have no stated.  
Mr. Bachrach was pretty mad, now, and he shouted: "Never mind what you have said. Say yes, now, if it is so."  
Dr. Krohn was pretty mad, now, so shouted:  
"Yes, now."  
They giggled and laughed; some of them shouted, until six or seven full

## CHARLEY BRYAN'S SCHEME CUT ICE PRICE IN LINCOLN

Keeps Record of Public  
Service Achievements.

### BOTH SIDES OF GOV. BRYAN

BY JAMES O'DONNELL BENNETT  
III.—Want say fact? Shuts the  
iceman, cheerily.

Lincoln, Neb., Aug. 18.—(Special.)—One morning in midsummer two years ago the icemen making their rounds in Lincoln dropped at every back door the cooling tidings that the next book of tickets wasn't going to cost so much by a good deal.

"(It was, so the story runs, right in the hottest part of the season.)

"And why won't they cost so much?" the suburban housewife asked.

"Well, you see, ma'am," said the icemen, with the manner of persons who had been taught to speak a piece, "you see, the company's been able to take up a hitch in its overhead, and it's giving you the benefit of the saving."

"Now, isn't that nice!" said the housewife.

When husbands came home in the evening wives imparted the good news about the drop in the price of books of ice tickets.

"What did they say the reason was?" husbands asked.

"Something about they've been able to take a hitch in their overhead," the wives explained, "and they're giving the consumer the benefit. Isn't it nice of them?"

Charley Was the "Overhead."

"Stick in your grandma's hat," said the husbands, adding—

"It's Charley Bryan!"

Gov. Bryan acknowledges that impeachment. He was a city commissioner—Lincoln is covered by a board of five commissioners—that summer of the glacial slide, and, as always, he was making life a burden to the other commissioners with his stock deductions and "unholy combinations" and "insinuating prices," and his din, which ever runs "You are servants of the people." Anyway, there was an ice monopoly—practically speaking—and the price of ice is alleged to have been indecently high. So Charley W. Bryan set one of his customary expedients in operation. He began circulating a petition which, among five other propositions for referendum, initiative, and recall, prayed for a bond issue for a municipal ice plant. On all six propositions in the petition he obtained the signatures of so many legal voters that it became obvious that most if not all of the propositions would carry at the polls if they were submitted to the electorate.

Gets Busy on Ice Plant Plan.

All this happened many months before Commissioner Bryan took any action in the matter of ice prices. In fact, many persons had forgotten that there was a municipal ice plant clause in the famous six proposition petition.

## RECOVER NOTED BUST OF WASHINGTON LOST SINCE BIG FIRE OF 1851

New York, Aug. 18.—The marble bust of George Washington, presented to the United States by France and thought to have been destroyed in the fire which rased the congressional library in December, 1851, has been found after more than seventy years. Mitchell Kennerly, art collector, announced today he had found the historic relic in an obscure marble cutter's establishment in Manhattan and disposed of it to Henry B. Huntington of New York and San Gabriel, Cal.

Daniel Chester French, Paul Bartlett, and J. Davidson, American sculptors, after minute examination of the bust, have pronounced the work that of Pierre Jean David, commonly called David d'Angers, famous French sculptor, from whom the French government originally purchased it for presentation to this government.

The bust, of Pontellie marble and about thirty inches in height, was purchased by the United States in the last century and reposed in the congressional library until the fire of 1851.

Kennerly said he had learned of the existence of the bust from a staid yard proprietor who said that ten years ago a serving man in a neighboring residence sold him for a trifling sum a block of marble which he said his master had given him. Five years it had stood about the yard, neglected.

But, two years ago this summer, Mr. Bryan, as they put it in Lincoln, began rustling the ice papers in his office, opening and shutting the drawer in which they lay, and doing that so noisily that suddenly the ice dealers saw a damming light and there were conferences between them and the Lincoln chamber of commerce.

The sequel was the cooling announcement at Lincoln that done in the summer of 1922 that the company had "been able to take a hitch in the overhead, and was giving the consumer the benefit."

I was telling you a while back that Charley Bryan acknowledges that he accomplished this thing. He does. He does in a compact envelope containing six tastefully typewritten pages of personal and political data about the governor, which was given me at the capital by some Mr. Farris, purchasing agent for the state of Nebraska, appears this paragraph—

"Some Accomplishments of Gov. Bryan."

So fervent a reduction in the price of ice, saving Lincoln people \$30,000 per annum, by a special election and the charter and civil code to build a municipal ice plant. The ice trust decided to reduce the price rather than face the municipal competition.

Record of Other Reductions.

Thirteen more paragraphs of "Some Accomplishments" cover reductions in price of coal, gas, electricity, gasoline, and gravel; development of playgrounds and of Antelope park; payment of widows' pensions in cash instead of in orders on gouging grocery stores; settlement of labor disputes to the mutual advantage of employer and employee; defeat of traction company's effort to evade ordinance providing special fare for children going to and from school; support of equal suffrage movement and to use one of the governor's catch phrases of conversation—"and so forth."

Now, many persons laugh at, froth

## TOWN MENACED BY RIVER OF MUD BORN IN GLACIER

Sacramento, Cal., Aug. 18.—A veritable river of mud, boulders, and ash, extending in width from a few hundred yards to half a mile and in some places from fifteen to twenty feet deep, is flowing from the mouth of Mud Creek canyon, eight miles above McCloud, Shasta county, on the slope of Mount Shasta, into the McCloud river, says a dispatch to the Sacramento Bee.

Boulders, some of them many tons in weight, are being carried toward the river in the thick stream, whose like has never been seen before in the McCloud section, and whose origin is a mystery.

Old residents attribute the phenomenon to a glacier, the only one on the McCloud slope of Mount Shasta, which is situated near the peak of an extinct volcano and which had been exposed to the sun because of the death of snow.

They are convinced that a portion of the glacier has broken loose, slipped down the slope of the mountain, and now is melting rapidly.

Sweeping past McCloud at a point three miles distant the irresistible, viscous mass broke the pipes of McCloud's water supply and for two days the inhabitants were forced to depend on railroad tanks for their drinking water, the Bee's advice stated.

## REBUILDING OF EUROPE PUT IN YANKEE HANDS

U. S. Men to Boss Dawes Pact Machinery.

BY HENRY WALES.

(Chicago Tribune Foreign News Service.)  
(Copyright, 1924, by The Chicago Tribune.)  
PARIS, Aug. 18.—The solution of the reparations problem and the rebuilding of Europe has been placed almost entirely in the hands of Americans through the signing of the Dawes pact in London.

This statement was made here today by one of the French delegates to the London conference during an interview with representatives of the press.

The negotiator, who wished his name withheld, expressed full confidence that the pact placing the reparations problem in the hands of Americans will be passed by the German Reichstag, and also that Premier Herriot will obtain the full support of the French parliament, which meets tomorrow.

Herriot Hailed as Conquering Hero. The statement, which outlined completely for the first time the tremendous machinery which the nations of Europe propose to set up for the reconstruction of the world after ten years of war and "war after war," was given out shortly after Premier Herriot returned to Paris. The premier was received like a conquering hero. No French premier for years has received such cheers.

The welcome accorded the premier from the time he landed on the soil of France at Dieppe was continuous and noisy. At St. Lazare station in Paris a densely packed crowd waited in the huge courtyard and streets leading to the station for more than an hour in a driving rain. Inside the station and along the streets to Quai d'Orsay crowds of persons started to cheer ten minutes before the train arrived.

Pelted with Flowers. M. Herriot, Finance Secretary General, and Gen. Nollet all shook hands with their engine driver as they descended from the train to the accompaniment of the cheering. They were pelted with flowers, but the poses had a hard fate in the dense crowd, only two huge bouquets succeeding in reaching the premier's motor car not ruled by the enthusiastic mob.

M. Herriot will present his case to President Doumergue and the cabinet tomorrow, and to parliament on Thursday.

A Complicated Mechanism. The negotiator, who outlined the work ahead in carrying out the Dawes plan, pointed out that the mechanism now established for the execution of the Dawes report is extremely complicated, but is necessarily so.

Tourists will be complaining that there is no room in Paris and Berlin hotels—they will all be full of our arbitration commissioners," he said. He outlined in response to questions the present program of conferences for a definite settlement and peace.

The first will be a "pie cutting" conference to allocate the portions of Germany's payments. This conference will be held in Paris.

Second Parley on Debt. A second conference will treat international debts with the United States probably not represented even by an observer. This also will be held in Paris, with Great Britain attempting to get some sort of settlement. France owes Great Britain \$2,000,000,000, roughly, and Italy \$2,000,000,000, and the smaller powers all together roughly \$1,000,000,000. A settlement is expected along the lines of Andrew Bonar Law's plan, the allies paying what Great Britain must pay the United States.

A third conference between France and Germany in Paris will negotiate a treaty of commerce between the old enemies.

A fourth conference will be held in Geneva to settle the important problem of Franco's security.

Problem Now Up to Americans. In concluding, the diplomat pointed out that the solution of the reparations problem now has practically been turned over to America and Americans. If America had signed the treaty of Versailles it could hardly have played a more active role than will be occupied by some of its citizens. Americans have been named or will be named for the following highly important positions of governing the whole settlement.

FIRST, director of the new gold bank of Germany.

SECOND, agent general for reparations.

THIRD, members of a transfer committee, of which the agent general is president.

FOURTH, permanent voting member of the reparations commission for the declaration of Germany's possible future default.

FIFTH, an unofficial observer on the reparations commission representing the Washington government— which

## THE WAYS OF NATURE

WONDER WHICH EXASPERATES THE FARMER MORE?

(Copyright, 1924, by The Chicago Tribune.)

none of the other Americans will officially do. This position now is held by Col. James A. Logan.

SIXTH, arbitrator for the questions of transfer of currencies and other mechanical troubles in the operation of the Dawes report. There will be about three of these arbitrators, all Americans.

Urged to Quit Ruhr. (Chicago Tribune Foreign News Service.)  
LONDON, Aug. 18.—Prime Minister MacDonald today wrote an urgent note to Premier Herriot and Tugue, attempting to hasten the final evacuation of the Ruhr. He says in part:

"The British government has never recognized the legality of the occupation of the Ruhr nor the interpretation of the clauses in the treaty of Versailles upon which their allies acted. They hoped as that the occupation was undertaken solely for economic purposes it would be withdrawn as soon as the Dawes report is put into operation."

The British government urges strongly that the governments concerned take every possible step to hasten the evacuation, as in the opinion of the British government a continued operation may prejudice the working of the Dawes plan and jeopardize the arrangements agreed to by the London conference.

French Leave Baden Towns. STRASBOURG, Alsace, France, Aug. 18.—(By the Associated Press.)—French troops began their evacuation of Offenbourg and Appenweier this morning, and it was expected they would be entirely out of the two German towns some time tonight.

An official announcement said the evacuation of the two Baden towns was due to the recent resumption of international train services between Paris and Warsaw and Paris and Prague, the suppression of which on the German section of the line caused the occupation as a penalty in February, 1922.

Germany's Tens Moderates. BERLIN, Aug. 18.—(By the Associated Press.)—With the return of the German delegates from the London conference there is a conspicuous moderation in the tone of the editorial discussions on the outcome, and political experts are busy figuring out the party lineup in the Reichstag when the government's action is up for approval or rejection.

The chancellor entered upon a series of conferences with the Reichstag party leaders this evening and will continue them for several days, or until the Reichstag is convoked.

## INVEST NOW! MAKE QUICK PROFITS —Let Us Show You How

For \$100 down and \$5 per month you can buy big lots in our North Shore Subdivision located near the Johns-Mansville plant. Just one block from transportation, between two golf courses, the only restricted section in the direct path of the city's fastest growth. If you buy now, you get our lowest wholesale prices, but you will have to hurry as this property is bound to increase in value soon. Building plans are already under way, and prices in the near vicinity have already increased. With the employment of 2,500 additional workers, hundreds of new homes will be needed. You can make big profits here. Mail the coupon for further details.

## STAGE SET FOR G. O. P. RALLY AT DAWES CEREMONY

Republican Leaders Here for Notification.

Charles Gates Dawes, last of the old party nominees to receive official notification, will give the final signal for the start of the national campaign tonight. His speech accepting the Republican vice presidential nomination will be the last of the preliminaries.

Candidate Dawes, one of Chicago's leading bankers, McKinley's controller of the currency, Harding's aid in France, Harding's budget director, author of Europe's plan for reparations settlement and President Coolidge's lieutenant, will make his acceptance speech on the spacious lawn of his Evanston home overlooking Lake Michigan.

The hour is 8 p. m.—fifteen minutes earlier than previously planned. The Dawes grounds will be thrown open to the public at 7:30.

To Radiocast Speech. Gen. Dawes' acceptance speech and the notification address by former Congressman A. W. Jeffers of Nebraska preceding it will be radiocast. Graham McNamee, whose voice is familiar to all radio fans, will be the official announcer.

William M. Butler, chairman of the Republican national committee, will preside. President Coolidge will be officially represented by his personal secretary, Edward T. Clark, and Frank W. Stearns of Boston, an intimate friend. Republican notables from all parts of the country began arriving yesterday.

The announced program is short. Music will be provided by the Hamilton club chorus and the Racine, Wis., American Legion band. The invocation will be by the Rev. John Thompson, pastor of the First Methodist church. Then the speeches of Mr. Jeffers and Gen. Dawes and the benediction by a Catholic clergyman, the Rev. Father Hugh Patrick Smyth, pastor of St. Mary's church, Evanston.

Plan Elaborate Lighting. High powered lights will make the scene as light as day. Colored flares will brighten up the lake shore. Platform seats have been provided only for the official guests, but the big lawn will provide standing room for thousands who will be able to hear by means of voice amplifiers.

Details for the ceremonies were worked out jointly by local committees named by Mayor Pearson and William G. Edens and R. A. Gunn, representing the national committee. Many organizations plan to attend in a body. These include Republican women's or-

ganizations. Evanston's clubs are holding open houses. The Hamilton club of Chicago is playing official host to the official guests. They will be luncheon at noon, when Senator James A. Watson of Indiana, one of the "old guard" stalwarts, and Mrs. A. T. Hart of Kentucky, vice chairman of the national committee will speak. Other functions for other guests have been arranged. Several thousand Negro supporters of the Coolidge-Dawes ticket plan to march in a body to the ceremonies.

Gov. Hyde Arrives. Gov. A. M. Hyde of Missouri was the first of the governors on the official list to arrive. He had earlier sent his regrets but was one of the first of the G. O. P. notables to show up yesterday along with many members of the notification committee, national committee members, senators and congressmen, constituting the official guests. These will be entertained at dinner by Gen. and Mrs. Dawes tonight. Up to a late hour nothing had been heard from Gov. Len Small.

L. Conant of Oak Park, who as a boy of 15, carried the "White Awahe" flag of honor at the old Wigwam in 1860 when Abraham Lincoln was nominated, will occupy a place with the original flag on the platform.

Here Are the Slogans. Republican campaign slogans, borne by pretty girls, will make their first appearance at the Dawes ceremony. Here are some of them: "Keep Coolidge! He Keeps the Faith!"

Preserve Our Laws with Coolidge and Dawes!  
Protect America First!  
A Low Tariff Lowers Wages! A High Tariff Fires Workmen!  
Because It's a Ticket with No Flaws, Elect Coolidge and Dawes!  
The Republican Party Is Hard on Hard Times!  
Republicans Have Used Axes on Taxes!  
The Budget Plan Has Proved We Can!  
Nothing Awaits Coolidge and Dawes!  
Vote as You Should—for Your Country's Good!  
Coolidge and Dawes Are True to the Red, White, and Blue!  
Our Party Always Fights for Equality of Rights!  
Coolidge, Dawes, and Common Sense!  
The Best Selection for Election—Coolidge and Dawes!  
Coolidge and Dawes Do Their Duty—Let's Do Ours!  
Tried and Not Found Wanting—Coolidge and Dawes!  
Suppose Madison Square Garden Had Been Congress?  
Duty Always Comes First—with Coolidge and Dawes!

# 1 DEAD, 4 HURT AS MOTORCYCLE AND AUTO CRASH

Two Deaths in Day Raise  
Year's Toll to 392.

Robert Blaha, 18, 6223 Roosevelt road, Berwyn, was fatally injured, and four others were severely hurt yesterday when an automobile and a motorcycle collided at Highland avenue and 14th street, Berwyn.

The youth, who drove the automobile, died in the Oak Park hospital, where his companions, Charles Svoboda, 1409 62d avenue, Cicero, and Frank Rittner, 1818 Scoville avenue, were taken, suffering from cuts and bruises.

**Motorcyclist Hurt Internally.**  
Frank Anderson, 1183 South Harvey avenue, Oak Park, driver of the motorcycle, received internal injuries. Henry Koch, 1219 Highland avenue, Berwyn, a passenger in the side car of Anderson's motorcycle, was severely cut and bruised. Both were taken to the Berwyn hospital.

A paralytic stroke, believed to have resulted from injuries received in an automobile accident over two years ago, yesterday caused the death in his home of William Mueller, 58, 1237 Girard street.

**Toll To Now 392.**  
The two deaths raised the city's motor death toll since Jan. 1 to 392. Four persons were injured, one of them, Otto Sodergren, 53, 8239 Langley avenue, perhaps fatally, when two automobiles collided at Prairie avenue and 67th street. Sodergren was driving with his wife and son, when the other car, driven by Alphonse Leich, struck his car. Leich was held for questioning.

"Moonshine" is blamed by the highway police for an automobile accident yesterday afternoon which resulted in one woman losing her right arm, and another woman suffering a broken nose. Two men in the car escaped uninjured. The accident occurred on the Milwaukee road about a mile and a half south of Wheeling when the automobile in which they were riding crashed into a bridge over the Des Plaines river. The driver was E. Tolt, 29, business agent for the Structural Iron Workers' union, 311 North River street. He was accompanied by Mrs. Irene Kelley, 24, a telephone operator at the Briggs house, Miss Alice Miller, 21, the Briggs house, and Walter Reed, a Jockey of Cleveland, O. Tolt was arrested.

It is one cause of water electric railways should be guard against the leakage of electric current, which plays a part in the water supply. The leaking mains and in buildings property under city control is the recent flood at 14th and Indiana avenue is an illustration of the condition of our water

## Order from Horder

We Sell Tons of

# PINS

(Quantity Prices on Request)

## Bank [office] Pins

Of the medium size there are 3,571 pins to a pound. With hundreds of pounds sold daily, one can realize the millions that are consumed. Ours are the finest quality spring brass wire, heavily tinned. Their sharp needle points penetrate the paper quickly without bending and hold firmly until removed. Nine sizes—from 55c to \$1.40 per pound. In ½ pound boxes.

**Admantine Pins**  
If pins are needed to be used but a few times and through but a few sheets of paper, the low cost of Admantine pins may appeal to you. Two sizes only, 55c and 40c per pound.

## Pins with Handles Wedge Point Pins

Where the quantity of materials to be held together is fairly large the Wedge Point Flat Pin (made of flattened instead of round wire) is the logical pin for the job. Its wedge shape point, stiff body and flat triangle head assure quick, easy insertions and a sure grip than is possible with the ordinary pin or bulky paper clips. Prices \$1.25 to \$2.50 per 1,000.

#### "T" Pins

In banks and offices it frequently occurs that pins are used until worn out rather than thrown out. For such work "T" Pins were specifically designed. Their large smooth heads permit speedy insertions and removals from thick masses of paper without injury to one's nails or fingers. A slight crook in the wire immediately next to the head causes papers to lie flatter than when regular pins are used. The large head also keeps top paper from tearing off. Prices, \$1.50 to \$3.15 per 1,000.

Check up your stock of pins. Horder's can replace it for you promptly and at very low cost. Order today from the nearest Horder's store.

Wherever you need in office Horder's can supply. Please and mail orders receive the same careful attention as those made by personal call. Free delivery anywhere in Illinois and nearby states. Horder's prices are always right.

## G. O. P. FORESEES MAIN BATTLE IN RACE TO SENATE

Leaders Confident in Cal as a Winner.

BY FRANK BUTZOW.

More real concern is felt by Republican leaders over senatorial and congressional contests next fall than over the presidential election itself. This, in general, is the report G. O. P. wheel horses made to national headquarters when they arrived yesterday for the first of the Davis nomination at Evanston tonight.

Increasing manifestations of confidence in the heart of the Republican ticket are evident throughout the country, the leaders report. Two states that must conservative supporters place in the doubtful column might be used as illustrations for this display of G. O. P. feeling. They are the border state of Kentucky and insurgent but erstwhile Republican Minnesota.

See Good Chance in Kentucky.

Representative Maurice H. Thatcher (Rep., Ky.) said there is an excellent chance for Coolidge and Davis to carry the blue grass state.

Many conservative Democrats, believing there is no chance for the Davis-Bryan ticket, will vote for Coolidge and Davis rather than risk the change which Le Follette threatens by attempting to throw the election into congress. Congressman Thatcher said Republican prospects in Kentucky, he added, are so good that Republicans there are optimistic over the chances to send Fred M. Sackett to the United States senate in place of Senator Stanley.

Congressman Walter H. Newton (Rep., Minn.), who arrived to attend the notification and take his place in the speakers' bureau as assistant director, says increased grain prices and crop prospects have the farmers of the northwest in good humor and that the Le Follette claims are greatly exaggerated.

Ex-Congressman Lincoln Dixon of Indiana arrived yesterday to open Democratic western headquarters in the Auditorium hotel.

UNION MAN REFUSES BID.

Washington, D. C., Aug. 18.—The American Federation of Labor made public tonight the text of a letter written by Joseph A. Wise, a member of the Chicago Typographical Union, to William M. Butler, chairman of the Republican national committee. In it he declined an invitation to attend the ceremonies notifying Charles G. Dawes of his nomination, because he said he prefers to "choose the constitution and repudiate the party candidate in the present political situation."

"About ten months ago I took an active part in the campaign to defeat a Democratic judge in Cook county," Judge Dawes said. "I was then a member of the Chicago Typographical Union, and I was then a member of the Republican national committee. In it he declined an invitation to attend the ceremonies notifying Charles G. Dawes of his nomination, because he said he prefers to 'choose the constitution and repudiate the party candidate in the present political situation.'"

"Through the efforts of Mr. Dawes, Judge Sullivan was reflected by the votes which Mr. Dawes personally obtained for him in Evanston and other towns surrounding Chicago."

## Coolidges Stroll Over Scene Familiar to Four Generations

BY PHILIP KINSLEY.

(Picture on back page.)

Plymouth, Vt., Aug. 18.—(Special.)—President Coolidge walked over to the old homestead today and revisited the scenes where four generations of Coolidges have toiled for a living on this thin mountain soil.

The President visited the maple tree where he had often drawn palls of sap and took an old mill back to his father's house. Col. Coolidge had gone to town to get some beef steak for dinner.

At the old farm not a sound save the creaking of a belt and the distant rattling of the mower in the oat field. Stone fences gleamed from a stony soil, a ground hog sitting upright and motionless in a near meadow.

Hand of the Past Is Makenless.

The attic in the house is just as grandmother Coolidge left it. Clothes still hanging on the line near the chimney. A four poster made up under the eaves. An old spinning wheel, loom, and a churn; a lantern of the tallow candle days, hickory chairs—all undisturbed—this background of the President's childhood into that simple undaunted, hardworking, God-fearing human stuff which carved out America.

This is the "Coolidge myth" which, after all, is nothing but character and a type as natural to this soil and race, as the golden rod that grows by the roadside. Its very simplicity is appeal to anybody bent on its destruction. Given a set of circumstances, and you will always know what a Coolidge will do.

There is an old pewter teapot in the home which belonged to the President's mother. One day, when a boy, he asked his father for a penny to buy a stick of candy. That was an uncertain year politically and Col. Coolidge refused saying that possibly a Democrat would be elected, and it behooved every man to be especially frugal in the hard times that would result.

Time to Splurge a Bit.

Later, when a Republican was elected President, Col. Coolidge went to the teapot and extracted a penny for his son. That is the way Col. Coolidge saved enough money to send Calvin to Amherst college, and help him in pocket money until he could make a living at the law.

From diving into these old memories and getting in contact again with the visible reminders of his ancient faith—America, courage, faith, and work—the President was brought sharply back to the present by a visit from Representative Allan Treadway of Massachusetts and a message telling of the death of Senator Colt of Illinois.

He sent a telegram of condolence to the Colt family and then came out on the lawn to receive a gift of two wooden racks from Mr. W. Steadman of Tyringham, through Mr. Treadway. He had on a dark, neat sack suit.

LONELY DOES AT DEER GROVE TO HAVE A MASTER

Since the killing of the buck deer at the Deer Grove forest preserve last spring, the herd of thirteen does has been without a master—truly a sad state of affairs, the county commissioners lamented yesterday. They authorized Chief Forester Ransom E. Kenniott to negotiate for the purchase of a buck to take the place of the deceased.

Mr. Kenniott was cautioned, however, to get a manly buck, since it became necessary to shoot his predecessor because he was killing the young deer.

## FORD, FIRESTONE, EDISON TO CALL ON PRESIDENT

Lodow, Vt., Aug. 18.—Henry Ford, Thomas A. Edison, and Harvey Firestone, who have been spending a motor vacation together in New England, arrived in Lodow tonight, and have arranged to see President Coolidge tomorrow morning. They are on a motor trip which eventually will take them to Montreal.

Mr. Firestone said his chief trouble was that Mr. Ford was on a diet and that led the rest of the party into the same of simplicity in the food line.

Mr. Edison, looking tanned and refreshed from his vacation, sat alone in the hotel lobby this evening, having refused to go for a walk with Mr. Ford.

Mr. Ford, spy and genial, bounded up the steps to invite the inventor to go for a stroll, but Mr. Edison shook his head. Mr. Ford seems to have a peculiar method of communicating with Mr. Edison, whose deafness increases with his years, and the two get along splendidly in a sort of sign language.

Corrects Him with a Word.

The President looked carefully at the rakes and said "Ash."

"Yes, Mr. President, you are a good judge of timber. This is ash, except for the hickory brace," said Mr. Treadway.

The President was asked to rake a little hay, but he refused, saying there was "no hay to rake," and after thanking the congressman, laid the new rakes carefully against the wood shed door and entered the house.

Mrs. Coolidge came out. She was dressed in a white flannel suit, sweater, and white hat. One of the secret service men had captured a stray, black kitten for her and she was happy with this.

President to Visit Children.

Up this road the school children were marching, a dozen or so behind their girl teacher. The President is planning to visit the children some day.

Always, every day, there is the cemetery, the path to the Coolidge plot is worn now by many feet, and the last grave is heaped high with flowers, some direct from the White House.

There are eighteen graves now in this plot and three places left for the President, his wife, and John, their remaining son.

Col. Coolidge has his name and birth date already cut on a grave stone.

They stand under the whispering pines, granite Coolidges, from back to the days of another Calvin, born March 27, 1780, died April 3, 1853. This "Coolidge myth" is made of granite, not newspaper stories, and it will not wash away in any election storm.

## Mrs. Turner did the "impossible" thing —

Transformed the Jenkins' place into a charming home

Everyone agreed that Mrs. Turner was clever. So when she bought the Jenkins place—the plainest house on the street—everyone knew something was up.

True, the old house was well-built—but it was so ugly. What could she want—or do—with it?

She used the Barrett Book

Study the illustration and plans above. They show what she did. Shutters, dormer windows, a sun porch and a new entrance performed the miracle. And she got her ideas from the Barrett Book.

This fascinating volume has shown thousands of home-owners how to save all that was good in their old homes—the solid, honest construction and comfort—at little cost!

A Wealth of Ideas in the Barrett Book

For little changes are all that is necessary to rejuvenate one of these sturdy old places. And in "Better Homes from Old Houses" you'll find a wealth of sensible, low-cost remodeling suggestions—practical sketches and plans for all common types of old-fashioned dwellings—doubtless, one resembling your own. Take the first step today—get the Barrett Book.

Get the Barrett Book!

Prepared by a staff of leading architects, "Better Homes from Old Houses" makes home-remodeling simple and economical. Every common type of old house is featured. Every step is carefully explained in plans, sketches and text. It shows you all the shortcuts to a modern comfortable home. Your hardware, lumber or building supply merchant has this book—or—

You can get a copy promptly by writing The Barrett Company, enclosing ten cents in stamps.

## The best Want Ads bring best results

Want Ad offers encounter competition for attention. It therefore behooves the advertiser to set forth his offer in as attractive a form as possible, in order to catch and hold the attention of the reader. The Want Ads that are most successful are those that are not lacking in thorough description; the ones that take to the reader a mental picture of the advertiser's offer. Such Want Ads, used consistently in a medium that is known for Want Ad resultfulness, will find prospects for any marketable article.

A specimen of Tribune Want Ad efficiency may be seen in the advertiser's statement of the resultfulness of this Tribune Want Ad:

BEAUTIFUL HOME IN IRVING PARK

Unusual brick bungalow; 6 room, breakfast porch, interior electric, modern expensive homes in city. All modern equipment. House only 8 months old; 2 car garage, city and train-tram. Price \$10,000. Cash \$2,500. Terms \$750 per mo. Phone owner, Mrs. J. J. Kimball, 1000 N. Dearborn.

Mr. B. A. Anderson, 4411 Sheridan Road, said of this Want Ad:

"The results were really wonderful; we only needed this ad one time, and sold the house to the second person that called. There were five replies, all from interested principals, and we had no trouble at all in getting a satisfactory price."

## KIMBALL PHONOGRAPHS

THE greatest opera tenor—or the mere amateur—will render the same aria with exactly the same accuracy. The vast distance that separates them is due to subtle differences of tone.

The KIMBALL Phonograph reproduces all shades of tone with such fidelity that the voice of a Florence Macbeth, or a Louis Graveure—or a performance by the great 'cellist Pablo Casals—is revealed in almost the same perfection as the original.

Kimball Style X, a console model in the Tudor Style, is a singularly graceful design in two-tone walnut. Tone control or amplifier. Plays all disc records.

KIMBALL Phonographs represent a wide selection of console and upright designs, among which you will find models in accord with any scheme of home decoration.

Prices \$100, \$125, \$150 and up. Monthly Payments if Desired.

Columbia Records on sale. Ask for complete catalog.

## BRYAN APPEALS TO WOMEN AND FARMERS IN 'YES'

(Continued from first page.)

vote monopoly were other subjects discussed by Governor Bryan. He promised to take up later during the campaign other matters enumerated in the party's platform as demanding attention.

He dwelt particularly though on agriculture and charged the Republicans with changing the farmers' condition "from prosperity to adversity."

### Needs Lower Tariff.

The farmer, he continued, "needs the high tariff rates reduced so as to enable him to buy in a competitive market at home and remove the restrictions which have injuriously affected the foreign market in which he sells his surplus products."

Support of the federal reserve system, lower rail and water rates, development of a deep waterways system from the Great Lakes to the Atlantic ocean and gulf, water power, cheap fertilizer, more uniform warehouse laws, cooperative marketing legislation, an export marketing corporation and the benefit of the newly proposed reclamation act were listed as other needs.

Discussing war, Gov. Bryan declared the Democratic party would endeavor to secure world disarmament by international agreement and seek also an international referendum on the subject.

### Hits at Defense Day.

War propaganda, mobilization demonstrations or civilian and industrial resources, he deplored as a "great economic waste, misleading and unnecessarily inflammatory."

Labor must be dealt with humanely, Gov. Bryan asserted, adding that the Democratic party "has always been the laboring man's friend, not to secure his vote, but because the nation cannot progress unless he progresses."

Strict public control and conservation of natural resources, development of Muscle Shoals, recovery of the country's oil reserves and other parts of the public domain, "which have been fraudulently or illegally leased or otherwise transferred to private interests" were advocated.

In addition to the thousands who thronged the stadium, persons in all parts of the country heard the speeches by radio.

Mrs. Emily Newell Blair of Joplin, Democratic national committeewoman from Missouri, presided, after being introduced by Clem L. Shaver, the party field marshal.

## MANAGER LEAVES PUBLIC LIFE CO. FIGHT RENEWED

A hint of renewal of a warfare between opposing factions in the management of the Public Life Insurance company developed yesterday when Alfred Clover, once head of the concern, announced an intention of bringing about an immediate audit of the company's books.

Mr. Clover said he determined upon the proposed action upon learning that Maximilian J. St. George, the general manager and long an opponent of Clover in the affairs of the company, had left the city last Sunday.

"Three weeks ago I was informed that St. George was disposing of his \$18,000 in Public Life stock, and had him shadowed," said Clover.

"My detectives found he had pro-

duced passports to Italy and Poland and intends sailing from New York on the steamer Paris Wednesday.

Mrs. St. George denies her husband is leaving the country.

### Lay Plans for Chicago

### Defense Day Observance

At a meeting last night of the mayor's "Committee of Forty," on Chicago's Defense day program (Sept. 12) a sub-committee was appointed to submit detailed plans for observance of the day to the main body.

Mayor Dever did not attend the meeting and Angus Hibbard presided. The sub-committee consists of Mrs. Charles E. Herwick, Col. Julius Kline, Maj. William G. Adkins, Gordon Francis, Maj. Gen. James E. Stewart, Col. Charles E. Bartley and Maj. George F. Lee, with Maj. Roland M. Hollick acting in an advisory capacity. This committee will meet today.

## GEORGIA TO PUT UP FULL TICKET FOR LA FOLLETTE

Atlanta, Ga., Aug. 12.—Determination of the supporters of Senator La Follette, independent candidate for President, to challenge Democratic domination of the south, was seen here today in the issuance of a call for a meeting of Georgia followers of the Wisconsin senator to perfect a state wide organization to fight for Georgia's vote in November, national and state.

C. McClure, the temporary chairman of the La Follette organization here, said he is a progressive Republican but joined the La Follette movement because there was no chance of building up a Republican party in Georgia under present conditions that could offer serious opposition to the Democrats.

# The Economy of Cadillac Maintenance

EVERY automobile owner recognizes the necessity of making adjustments and repairs from time to time on his car, in order to insure maximum performance. Economy of maintenance, therefore, is as important a factor to the prospective purchaser of a motor car as the inherent value of the car itself.

The book, "The Economy of Cadillac Maintenance," contains complete descriptions and prices on all the ordinary adjustments and mechanical operations, together with a description of the Cadillac Standardized Change System. It contains convincing proof of the basic economy of owning a Cadillac. Your copy will be sent by return mail, on request.

# Saving 500 Million Dollars Annually

THE Oil and Gas Journal, of July 24, 1924, says: "Measured in terms of what is saved car and truck owners in the prices they must have paid for gasoline, if no cracking process had been in use, cracking saved the motorist last year probably \$500,000,000."

"And this is the significance of cracking," continues this journal—"a significance that can be measured in dollars saved to the millions who call at the filling station for gasoline."

The entire business of cracking gasoline has been developed since January 7, 1913, when the Standard Oil Company (Indiana) was granted its first patent for what is known as the Burton Cracking Process.

In 1923 there were some 2000 cracking "units" in operation, of which about 1600 were Burton Process, and the remaining 400 scattered among other cracking processes of more recent origin.

During 1923 the 14 million cars and trucks used about 6,800,000,000 gallons of gasoline.

Despite the flood of crude oil, during 1923, there were but 4,950,000,000 gallons of straight run gasoline available for these 14 million cars and trucks.

Hence it is obvious that without the cracking process now so generally in use, gasoline prices would have been substantially higher than they were and one-fourth of these vehicles could not have been operated.

This clear, simple statement of facts, verified and set forth in a non-partisan manner in a keen review of the situation by Charles E. Bowles in the Oil and Gas Journal, is more convincing than a dozen arguments in proving the immense service which the Standard Oil Company (Indiana) has rendered the automobilist, by developing the Burton Cracking Process, and by inventing stills and other refining machinery to a point where there is practically no crude which cannot be treated and made to yield substantial quantities of good gasoline.

If the Oil and Gas Journal is correct in its figures, and we believe that they are conservative, the average saving per car was \$35.72 for 1923—a saving essentially due to the progressive policy of the Standard Oil Company (Indiana).

## CHICAGO PAIRS LOSE NATIONAL TENNIS MATCHES

Brookline, Mass., Aug. 18.—National lawn tennis doubles champions last year, W. T. Tilden and L. C. Norton of St. Louis took on different partners in the title tournament that began on the courts of the Longwood Cricket club today and Norton was eliminated with his partner, while Tilden had a five set struggle to survive with his.

Frederick Kalmus of the Australian Davis cup team and William Davis of Canada's Davis cup players, who combined last year to beat Norton and Wray Brown of St. Louis, 3-6, 6-3, 6-4, 6-1, in a match between scratch teams, in which Crocker was the star.

Lott and Pare Lose.

The youthful Chicagoans, Emmett Pare and George Lott Jr., western champions, pushed Tilden and young A. L. Winner of Philadelphia to the limit in sets, 6-10, 8-6, 6-3, 6-2, frequently breaking through on the champion's service. Pare and Lott pushed placements past Winner and at times through Tilden.

The opening day's play of a tournament that was Olympic in its cosmopolitan aspect, with players from six countries, including several Davis cup teams taking part, marked the passing of Jacques Brugnot, a member of the French Davis cup challengers, who have just arrived in this country.

French Star Beaten.

Teamed with L. R. Blose of Boston, Brugnot was best man on the court in their match, but bowed to the team play of Lewis White and Louis N. Thalhimer, the University of Texas players, who hold the intercollegiate championship. The scores were 6-7, 7-5, 13-11.

Shooting rounds of 33-80-83, Carroll Stewart of the Briarcliff Golf club had the low score yesterday at Garfield park in the qualifying round of the Cook county amateur championship tournament. Sam Gilbert of Lincoln park was right behind Stewart, with 33-81-84. Sam was off the line at the fifth hole; otherwise, he played par golf. Their cards follow:

Stewart: 33-80-83-84. Out: ## AMERICAN BOY SCOUTS WIN CUP GIVEN BY KING

COPENHAGEN, Denmark, Aug. 18.—[By the Associated Press.]—The American Boy Scouts were awarded the highest number of points for their participation in the international scout jamboree which ended here yesterday, thus winning the prize offered by King Christian of Denmark.

The Americans scored 181 points against 172 for the British scouts, who took second place. The award (Wide World Photo.) is unanimously endorsed by the newspapers today.

The king remarks that when the king reviewed the scouts yesterday, "the Americans for the first time saluted with their flag, which was not even lowered at the review by Sir Robert Baden-Powell."

"The king was apparently disappointed that the Americans cheer leader, MacBeth, did not jump into the air and display his wonderful yell," continues the Politiken, which adds that MacBeth himself remarked: "We Americans after all were a wee bit shy in the presence of a real live king."

Will See Much of Europe.

New York, Aug. 18.—[By the Associated Press.]—America's Boy Scout troop, which received the largest number of points in the international jamboree in Copenhagen, won first place in canoeing, obstacle racing, baseball demonstration, hiking, running, and first aid, according to cablegrams received at national headquarters here today.

The fifty-six members of the troop,

who were selected from twenty-eight states and Hawaii, will be house guests of prominent Danish citizens for a week and will then travel through Germany, Holland, Belgium, and France, sailing from Cherbourg on Aug. 30.

A welcome is being planned for their arrival here Sept. 6 or 7.

**Burglars Take \$1,500 Furs, \$175 in Cash from Home**  
Returning from a shopping tour yesterday, Mrs. August Gerke found that her home at 327 Ridge avenue, Evanston, had been robbed of fur coats and clothing valued at \$1,500 during her absence. Included in the loot was \$175 which Mr. Gerke, as treasurer of an Evanston church, had collected Sunday.

## Quick Breakfasts —ice cold, this new way

How a world-noted chef discovered a new breakfast delight for millions in Quick Quaker. The recipe.

HERE is a change from ordinary breakfast; the most delicious and alluring you can fancy. No bother; no waiting to prepare it—and chilled! Here's the recipe:

As you prepare dinner tonight, cook your regular breakfast quantity of QUICK QUAKER (the new Quaker Oats that cooks in 5 to 5 minutes).

When done, pour into a pudding mould and let cool. Then place in the refrigerator over night. Cut in medium thick slices and serve at breakfast with fruit or cooked fruits or berries and sugar—float with rich milk or cream.

The combination is delightful. A world noted chef discovered this new way. Now millions enjoy it every day. Just for the joy of it, try it yourself.

Standard full size and weight packages—Medium: 1 1/4 pounds; Large: 3 pounds, 7 oz.

**Quick Quaker**  
Cooks in 5 to 5 minutes

EDUCATIONAL

Flax-lium lined flat of Daniel Joyce, 4300 N. Winchester St., Chicago

## Top Story Flats Can be Cool and Comfortable

Some upper flats and apartments are scorching hot. Others are cool and comfortable. The difference is a one-inch thick heat resisting material that careful builders install in the top story ceiling. This heat resistant is Flax-lium, the greatest material known for stopping heat and cold.

Where Flax-lium has been applied to the top story ceiling joists, upstairs rooms are always comfortable—a cool kitchen to work in, cool living rooms, cool bedrooms that let you sleep even in the hottest weather.

A "loft" or small space between the roof and the top story ceiling is sometimes provided to protect the top story rooms. But these lofts absorb heat. They become even hotter than the air outside. And then this heat seeps thru to the rooms below. People who have lived in Flax-lium insulated apartments and flats know that heat does not get thru Flax-lium. It is equal in stopping heat to sixteen times its thickness in brick or twenty-seven times its thickness in concrete.

**Insulation of Known Value**  
There is no guess-work about Flax-lium. Laboratory tests prove it the most efficient heat insulation known. And its efficiency shown in these tests is practical and sure in actual use. Flax-lium is made of pure flax fibre, folded into flexible board form. Easy to apply, can

## TRIBUNE COOK BOOK

BY JANE EDDINGTON.

**Elderberries and So Forth.**

It is certainly in the air, the revived interest in wild fruits. Already a letter has come asking about them apple jelly and about how to use hawthorn berries, and the summer has brought forth a number of articles on the wild fruit, just as the last year or two has brought forth books on the subject.

Of course, all the wild fruits are best for jellies when they are just short of being ripe. Blueberry jelly, which has been coming into some popularity for about ten years, is best if part of the blueberries are green or at the red stage between green and blue, and wild grapes are best at that red-dish stage. By the way, since the blueberry is not an acid fruit, only two-thirds of a cup of sugar to a cup of juice is used in making blueberry jelly. It is rich in pectin, and the wild berries supply enough acid.

Unnumerable jellies have been made of part apple, apple juice being practically the same thing as the commercial pectin, only fresher if made just for the purpose at hand. Some years ago some one versed in these things wrote:

"Barberry and apple jelly is made by using an equal quantity of each fruit. Wild cherry and apple jelly is made in the same way. So, also, is elderberry and grape jelly, although this will never become quite as firm as the other jellies made from wild fruits."

The green grapes have as much pectin as apple sometimes. Cook each two fruits with water to cover, strain, and cook without sugar for fifteen minutes, then add sugar, and finish cooking like any jelly.

## HAROLD TEEN—SOMETHING FOR THE SHEBA TO WORRY ABOUT

## A Friend in Need

BY SALLY JOY BROWN.

Music Would Help.

"I wonder if some reader of this column has a photograph to donate to a bunch of lonesome music loving patients confined to a sanitarium? It would mean a lot to us. We will gladly pay transportation charges."

It would be splendid if we could supply the photograph for these music loving patients.

Mate for Canary.  
"I have a male canary bird, and am anxious to get a female, but am un-

able to buy one. I wonder if any of your kind readers has one she no longer wishes to keep?"

"MRS. M. L."

Virgin's Saving Stamps.

"I am a little girl interested in collecting stamps, both foreign and domestic. I have but little spending money, so my collection doesn't grow fast. I wonder if there is some one who has stamps to give me. I would be glad to get them."

Who can contribute to Virgin's stamp collection? Her address is at your service.

## EMBARRASSING MOMENTS

Fifty to Watch.

I took my fourth grade on an excursion. On entering the station one young demon walked up to the rack that holds various suburban time tables and helped himself. Immediately, forty-nine young ones followed the railroad had gone out of business, for not one time table was left. Imagine my humiliation when on every suburbanite's face was a broad grin. I.R.

Authority Vs. Authority.  
We had a new boss I'd never seen. One day a man came in and began to

## WE ARE OFFERED 'TOKEN' DOLLARS TO SAVE BILLS

Washington, D. C., Aug. 18.—(Special.)—Desirability of amendments to the coinage laws, to permit use of token money in place of silver dollars, was suggested today by treasury officials in discussing the campaign just launched to popularize the old silver dollar.

Under the present law the treasury has no alternative from paper or silver dollars. The exclusive use of paper dollars is regarded by treasury officials as too expensive, inasmuch as the average life of paper money is only about six months.

Printed 100,000,000 Last Year.  
The treasury last year printed something like half a billion paper dollars. It is recognized that the public will not use silver dollars, except in a moderate amount, owing to their bulk. Treasury officials think that if the law were amended to authorize the use of token money it might simplify the problem. The scheme would be to use a metal coin not as large as the silver dollar and that would be easier to carry.

Has a Silver Limit.  
Under the present law the size cannot be reduced, because of the requirement that a certain amount of silver be used.

No response has been received from the public as yet to give the treasury a line on how the new campaign to popularize the silver dollar has been received. It is said there is no intention to try to force the use of silver dollars in large quantities.

There is a feeling, however, that the public can be encouraged to use a sufficient number to relieve the pressure in connection with printing paper dollars.

## KID M'COY ISN'T CRAZY, ALIENISTS FOR STATE AVER

Los Angeles, Cal., Aug. 18.—(United News.)—Charges that jewelry valued at \$10,000 were stolen from the body of Mrs. Theresa Mors either just before or after her death were made today by attorneys for Albert Mors, the woman's former husband.

This accusation, combined with the report that the state's alienists had pronounced Kid McCoy sane, featured the day's investigation of the alleged murder in connection with the former fighter, who is now in jail.

Mors has been granted letters of administration which permit him again to take over the antique shop of Mors, Inc., which had been given to his former wife in their divorce settlement. At estate of \$100,000 and \$50,000 in life insurance were left by Mrs. Mors to her husband. The charges that jewelry had been stolen were made when the petition for award of the shop was made in court.

Mrs. Mors is said to have been wearing a pearl ring, brooch, and wrist watch on the night of her death.

Kid McCoy is said to have admitted that Mrs. Mors had made him presents of jewelry at various times, but he denies knowledge of the specific articles mentioned by Mors.

## COURT ENJOINS MINIMUM WAGE LAW OPERATION

Superior, Wis., Aug. 18.—(By the Associated Press.)—A temporary injunction restraining the operation of the Wisconsin minimum wage law was issued today by the federal court here today in the case of the Folding Furniture company of Stevens Point, Wis., against the industrial commission of the state of Wisconsin.

The Folding Furniture company, in attacking the constitutionality of the law, alleges that it violated the fourteenth amendment by enforcing the 25 cent an hour wage schedule for adult women.

This, the plaintiff declared, was in effect, the taking of property without due process of law and an infringement on the free right to contract.

## BOY PROWLER ATTACKED BY CIRCUS 'LION'

(Picture on back page.)

Roy Reeves, 12 years old, 16 West Erie street, yesterday strolled about the circus grounds at Grant Park racking his brain as to how he was going to see the big show without a ticket.

Somewhere he found his way into the manager's tent. A huge cage attracted him. The flapping of the canvas which covered the cage whetted his curiosity. He lifted the flap.

In an instant his face, arms and shoulders were marked by ugly gashes which spurted blood and his clothing was torn to shreds.

This, the plaintiff declared, was in effect, the taking of property without due process of law and an infringement on the free right to contract.

The spirit which prompted the offer of \$100,000 for beauty of design demands every refinement possible in construction and equipment.

Cabinet work on the first floor—vestibule, lobby, elevator halls—will be English oak. Above the first floor selected Mexican mahogany, highly figured, will be used for elevator halls, corridors, rooms and offices. American black walnut will also be used. All finish hardware will be solid, statuary bronze. All wrought iron work will be hand forged and finished. All office floors will be covered with cork tile. Steel

# Tribune Tower is to have the Very Best of Every- thing

safety cabinets will be furnished. Window shades are to be of heavy hand-made cambric. Awnings will be furnished by The Tower management, without charge.

All space offered to tenants in Tribune Tower is equally desirable. Every office has its splendid view over lake or loop.

For booklet containing full information, floor plans, etc., phone CENTral 0100, or address Holmes Onderdonk, Manager, Tribune Tower, 7 South Dearborn Street, Chicago.

## Bills, Bills, BILLS!

EVERY month—the same old story. Unpaid bills piling up—the reminders of purchases made without one minute's thought given to income—or to outgo!

Generous credit makes it easy to say "Charge it, please" so that the first of the month brings the same old story, "Bills, bills, bills." And not enough money to pay them.

Our Service Station may be able to help you plan your spending so that you can live comfortably within your income.

Come to our Service Station and consult one of our financial plan experts.

There is no cost—no obligation. Just a personal, confidential service to help you plan your spending—and saving.

# WAVE OF PROFIT TAKING SWEEPS GRAIN MARKETS

BY CHARLES MICHAELS.

A wave of profit taking swept over the grain markets.

With less aggressive buying prices

gained sharply after an opening bulge

that took all deliveries of corn and

oats into new ground for the season.

The finish was on a moderate rally

but with net losses of 3 1/2¢ to 4 1/2¢

on wheat, while corn was off 1/4¢ to 1/2¢

and oats 1/2¢ to 3/4¢.

There was nothing in the news to

account for the selling, but many of the

local long regarded the technical

position as weak and the markets in a

position where there might be a sharp

decline.

House with eastern countries were

persistent sellers of wheat and there

also was selling in Omaha, Kansas,

and Minneapolis. In Canada overnight,

the Winnipeg showed any variations

throughout the day, closing 2 1/2¢ to 3 1/2¢

lower. September here finished at 11 1/4¢,

to 1 1/2¢, December at 11 1/4¢ to 1 1/2¢,

and May at 11 1/4¢ to 1 1/2¢.

Foreigners Buy Slowly.

Shipping of the Daves grain abroad

failed to stimulate the market taking

for wheat to any great extent, although

it was said that a good business had

been done in flour. Sales of wheat for

the day were around 400,000 bu, while

Chicago handlers sold 450,000 bu to ex-

ports. A big movement of wheat to

Chicago is underway, partly from Mis-

souri river points. Recent rains over

a large part of the belt are being re-

sisted in a large number of cases from

interior points that grade sample on

account of moisture and sold mainly at

spot under the September. An increase

of \$4.00 a bu. in the visible helped to

dampen bullish enthusiasm. Total stocks

are 33,194,000 bu. against 45,793,000 bu.

last year.

One Call for Corn.

Corn prices were up as much as 1 1/4¢

at the opening, with May up to \$1.22, but

the return of around 20¢ from the re-

cent low proved too tempting for many

traders and there was heavy profit taking

in evidence from the market. Part of the

opening bulge was due to buying to

close out trades for a local firm that

had failed, but the aggregate volume of

grain open was not large. At the inside

prices showed 30¢ to 40¢ under the early

higher with the close on a good rally

with September at \$1.22 1/2¢, and May at

\$1.19 1/2¢ to 1 1/4¢.

Weather continues much too cold

for corn, and reports of damage by frost

last week were repeated from points in

Minnesota and North Dakota. Fore-

cast was for showers but rising tempera-

tures over the greater part of the belt.

The general run of crop reports from

the country showed no change from

those received of late, but the technical

position in the pit was against main-

tenance of bulge.

One Wheat with Corn.

Wheat sold up to 40¢ at the open-

ing, but the price since September, 1923,

has been to the later with corn. Profit

taking was distinctly in evidence, while

on the break there was a good deal of

selling. May finished at 80¢.

Weakness in wheat was the main de-

terminant in prices. Reports from the

country were good buyers on the export.

The September reported 100,000 bu. sold abroad.

Foreigners Unsettled.

Foreign developments led to free buy-

ing of provisions early with an advance

to a new high on the present movement.

Shipping sales since late July have been

poorly made a reaction, and the finish

was easy with net losses of 50¢ to 10¢

on wheat, 25¢ to 50¢ on corn, and 10¢ to 20¢

on oats.

One Wheat with Corn.
